

SWAEKASYN AVW

Light fast white vegetable based on Caesalpinia Spinosa

Aspect	: White Powder
Basis	: Vegetable Powder
Solid content	: 95±1.0%
pH	: In 10% aqueous solution, 4.0-5.0
Solubility	: Soluble in water with slight sediments
Light fastness	: Excellent
Stability	: Stable to Neutral salts, Acids and Bases in usual concentrations in tannery. Compatible with Synthetic and Vegetable tanning agents and Dyes

PROPERTIES :

- It is not very astringent so maintain the fineness of grain.
- It imparts a bright, clean shade without the worry of iron stains.
- While use during retanning of Nubuck and suede Leather, gives fine & short nap.
- Due to its nature of excellent filling, it helps to achieve homogeneous dry milling effect.
- Combined with the fact that it is white, lightfast and has a good resistance to 'color change' when heating, it has become the most preferred vegetable tannin for the production of chrome free automotive, upholstery leather and sheep skin garment leather.

APPLICATIONS :

1. SWAEKASYN AVW is used for making soft garment, dry milled & Upholstery leather.
2. SWAEKASYN AVW when used in shoe upper / Nubuck Leather, it gives full and mellow leather.
3. SWAEKASYN AVW can be used in lining, upper, bag and sole leather.
