

## SWAEKASYN ASP-BLK

---

### Black Tannin

<b>Aspect</b>	: Brown Powder
<b>Basis</b>	: Polyphenol
<b>pH (1:10)</b>	: 3.5 – 4.5
<b>Solubility</b>	: Soluble with sediments
<b>Stability</b>	: Stable at wide range of pH

### SWAEKASYN ASP-BLK

- Imparts intense Black color to the leather.
- Good fixation of color.
- The shade remains consistent, even with the change of pH.
- For Corrected grain/finished Black Leather, Black Dye can be completely avoided.
- For the leather with improved dyability, few % of dyes can be added to achieve shade, but in such case also, the usage of Black Dye can be reduced substantially.
- Proportionately the Syntan/Vegetable tanning agent quantity can be reduced.
- Reduce cost of dyeing by almost 40-50%

### APPLICATIONS

- 5.0 – 8.0% on shaved weight.
- Dosage can be increased or decreased as per the convenience and as per the desired intensity of shade.
