

## SWAEKAOIL SYN

---

**SWAEKAOIL SYN is purely Synthetic fatliquor based on Long Chain Sulphochlorinated Paraffin Oil**

Nature	: Sulfochlorinated Paraffin Oil
Appearance	: Yellow Brown Liquid pH: 6.0 – 8.0
Solubility	: Completely soluble in Cold & Warm water

### PROPERTIES

- SWAEKAOIL SYN is purely synthetic Light fast fatliquor with long chain Hydrocarbon
- SWAEKAOIL SYN imparts excellent inner softness with smooth silky touch on the grain
- SWAEKAOIL SYN can easily perform even if it is dissolved in cold water while application
- SWAEKAOIL SYN has good Freeze Thaw property and maintains softness even in cold weather.
- SWAEKAOIL SYN imparts good run to the leather, so is also suitable for very soft gloving leather

### APPLICATIONS

- In Tanning : 0.5 – 1.0% on Pelt weight.
- In pre-fatliquoring : 1.0 – 2.0% on shaved weight
- In main fatliquoring : 4.0 – 8.0% on shaved weight
