

SWAEKABATE AL

ALKALI BATING ENZYME

Aspect	: Mild Brownish powder
Basis	: Proteolytic Enzyme
pH (1:10)	: 8.0 – 10.0
Activity	: 1000 – 1500 LVU
Solubility	: Partly Soluble
Stability	: Stable

SWAEKABATE AL

- Is Alkaline Bate being used after degreasing
- Helps to eat dead protein so open up the fiber matrix for Tanning
- Helps to remove residual lime

APPLICATIONS

- 0.5 – 1.0% on Pelt weight for Cow Pelt
- 1.0 – 1.5% on Pelt weight for Buffalo Pelt
- 1.5 – 2.0% on Pelt weight for Goat Pelt
